

## COVID 19 RESPONSE UPDATE

Dear Valued WOODFIRE Customers

We have been monitoring the situation extremely carefully and have been taking every measure possible ensure firstly that staff and customers remain safe and secondly that we can keep as many people in work as possible.

The government has announced a lock down and as a result we are taking the following actions effective as on Monday 23<sup>rd</sup> of March.

1. We will operate for Takeaway and Delivery only. We currently offer delivery via UberEats and DoorDash.

The best way to place your order for takeaway is online or over the phone – but we recommend online via our website as it allows you to prepay and makes the collection process safer and faster.

2. We will introduce our own in-house delivery. Please support our employees as much as possible by ordering delivery via our own in-house staff. You can order over the phone or again online via our website.
3. We will be selling DIY pizza and gnocchi packs (available pick or delivery) for customers to cook at home with very simple instructions. These packs can also be frozen for future use.
4. We will be selling various sizes of our chef made lasagne ready to be baked at home.
5. We will be baking fresh bread daily and sold online or via phone to help keep our staff in jobs. We will have many varieties of freshly stone baked breads available.

As always, we will continue to closely observe the unfolding events and will update our customers immediately of any changes affecting our operations.

Please stay safe and practice stringent social distancing so that we can defeat this pandemic together! And thank you once again for all of the lovely support we have received from all of our customers!

Lots of love from the Woodfire Pizzeria and Cucina Team
